## 2012 BUNKERS ARE SELLING BUT WHO'S BUYING?

No comments yet

It has been reported that specialized bunkers are being built in preparation for **December 21st, 2012**. One organization building these structures is **Hardened Structures Hardened Shelters**. Supposedly, they have built over 1,000 doomsday bunkers within the United States.

Who are buying these shelters? Most likely people with a large amount of discretionary income. If anyone cares to share some information, please comment.

## 11:11 – WHAT IS GOING ON?

26 comments

I have been experiencing an odd occurrence for approximately the past 18 months. It started off somewhat slow but has progressively become more frequent to where it happens almost every day. At random times, I will happen to look at the clock, or at some other screen, paper and I keep coming across the number, **11:11**.

Usually, this occurrence occurs with the clock where I happen to look at the clock on my computer, alarm clock, cable tv box, microwave, etc. precisely at **11:11**. So what you may ask, big deal? I didn't think much of it at first but I started noticing it happening more and more to where it seems highly improbable that it is just a random chance coincidence.

According to a variety of sources, the **Mayan Calendar Long Count** cycle ends on **December 21, 2012 at 11:11 am universal time**. When this phenomena first started, I thought about this time relating to the end date. Again, I didn't think too much about it, but after a few months of it increasing in frequency I started to feel that something strange is occurring

including in frequency related to what something strange is occurring and it relates to the **2012 end date** and time of the **Long Count**.

I started researching the topic somewhat and I discovered that this experience is happening to millions of people around the world! A book (shown below) was recently published about this specific experience I am describing.

I am highly interested in what other people think about this. Especially comments from anyone else experiencing this or similar phenomena. I have no idea what it means but I do feel it has something to do with **2012**. Please submit your comments.

## 2012 - SCIENCE OR SUPERSTITION

5 out of 5 stars

This is definitely one of the better books on the market concerning **2012**. The author, Alexandra Bruce has a great writing style as she objectively explores the **2012** topic. She has interviewed a number of experts on the topic and the book covers a wide variety of theories and speculation on the **2012 end date**.

The book covers ancient history and discusses the various legends of world ages across multiple cultures, not just the Maya. Each chapter is packed with information which at times makes you want more detail but overall this

## RACING TOWARD ARMAGEDDON

 1 comment

3 out of 5 stars

This book explores how religious fundamentalism within the three Abrahamic religions are steering the world into an **apocalyptic event**. The author makes many good points to support his case and he puts forth reason when examining various scriptures. However, it would be good if he explored other belief systems and how they could be pushing the planet towards an **end-time** scenario. For example, various occult beliefs and he fails to mention that many people in power are avid occultists. For the most part a decent book but somewhat one-sided.

The biggest disappointment with this book is how the authors capitalize on the 2012 movement to sell a book that is just a collection of articles on a variety of subjects. However, there are a few good articles in the book which is why I give it a two out of five stars rather than a one. I do not recommend buying this book. If you're in the bookstore, look through it first and read an article that stands out.

## 2012: THE RETURN OF QUETZALCOATL

 4 comments

2 out of 5 stars

This is a somewhat interesting book. What I found most intriguing was the journey into the author's psyche rather than the information on **2012** itself. There are numerous stories regarding drug induced altered states for spiritual purposes. Out of this comes some interesting observations and also some humorous tidbits. The author's stories depict a man struggling with responsibility in life and pursuing shamanistic methods for self-fulfillment. Throughout the book, it carries a tone of self-indulgent, intellectual babble that gets old but nonetheless, there are some decent highlights. I do not recommend starting with this book but if you have already read some books on **2012**, it could be an interesting read. However, I do not find this a serious book on **2012 prophecy**.

This is an excellent book that presents information in a clear, logical and easy to understand manner. It reads like a text book which is why it is easy to absorb the information. There are many high quality images throughout the book which adds to the value of the information presented. This is a great book to start the exploration of the **2012** topic.

## 2012: REVIEW

18 comments

The blockbuster movie **2012** lived up to the hype of an epic disaster film. Surprisingly, the movie is entertaining with decent acting and only hints of corny dialogue. Of course it was filled with unbelievable escape-from-disaster sequences but what else can you expect from a blockbuster movie.

For those interested in the **Mayan prophecies** and theories about **2012**, you will be disappointed as the movie only briefly touches upon the subject. A quick synopsis of the cause of the world cataclysm is presented with only a couple of references to the **Mayan calendar prophecies**. But in the end, it is still an entertaining movie with incredible special effects.

## 2012 MANIA

5 comments

The blockbuster film **2012** opened yesterday on Friday the 13th (interesting release date, quite humorous actually). Preceding the release of this film, interest in the **Mayan calendar end date** has been increasing dramatically. Now it is exploding. Below is a graph from Google Trends showing the rising increase of searches for **2012 prophecy**.

As we move closer and closer to **December 21, 2012**, I predict interest and media coverage (mainstream and non-mainstream) on the **Mayan Calendar prophecies** as well as **New World Order** topics to rise exponentially.
